This Filemaker application is 3 GB in size; for further specifications, see below. Connect to a good Wi-Fi or LAN for reliable download; download speed depends on internet connection and on the user's computer. An enlarged monitor and screen resolution of 1366 x 768 or better will aid readability. Installation is carried out at the end user's risk; the publisher accepts no liability for issues arising from installation.

Installation instructions for Windows 7 or later

N.B. If the "Excavations at Thebes files" on the Oriental Institute's website don't download immediately, select "Desktop" in the dialog box as the destination for the download.

- When the download from the OI completes, click to open the file "Lilyquist Excavations app 2020.zip."
- Inside will be a folder ("Lilyquist Excavations app 2020"); drag or copy and paste this folder to your desktop or C:\ drive. This is where the folder will live; placement elsewhere might bring an error message(s).
- Once the folder is on your desktop, click to open it. Within will be a blue folder icon (this icon is a shortcut to the application "Excavations at Thebes.exe"; ignore the folder "Excavations hidden files 2020").
- Click on the blue folder icon. When asked whether you want to run the application "Excavation at Thebes.exe," click "Run."
- The .zip file may now be deleted.

Installation instructions for Macintosh Mac OS 10.12 – 10.15 (*not* compatible with OSX 10.11 and earlier)

N.B. If the "Excavations at Thebes files" on the Oriental Institute's website don't download immediately, select "Desktop" in the dialog box as the destination for the download.
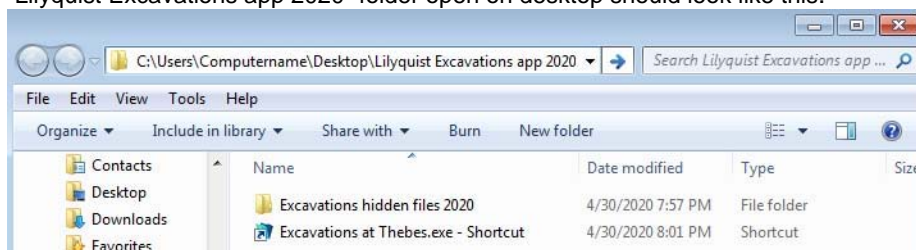

- Double click the "Lilyquist Excavations app 2020 mac.dmg" download on your desktop. Apple will begin to verify the .dmg.
- Drag the contents of the .dmg to your desktop. Be advised that placement elsewhere might bring an error message(s).
- Once copied to your desktop, open "Lilyquist Excavations app 2020 mac" to find the folder "Excavations at Thebes." Within will be an image icon for the application "Excavations at Thebes mac."
- Apple will ask whether you want to open the application "Excavations at Thebes mac"; click "Open."
- The .dmg file may now be dragged to Trash.

Windows Troubleshooting

'Not able to find Excavation at Thebes app'
If you are not able to find the application shortcut "Excavations at Thebes" (or "Excavations at Thebes" within "Excavations hidden files 2020"), delete the downloaded .zip file and its copied content from your computer. Go back to the website and download again. Be sure you have a strong internet connection; if on Wi-Fi, try moving closer to your router or use a LAN connection.

"Lilyquist Excavations app 2020" folder open on desktop should look like this:

Note
This "Excavations at Thebes" publication was developed as a series of relational databases in Filemaker Pro Advanced 11, was modified in Filemaker Pro Advanced 17, and converted to a Filemaker Runtime solution compatible with 32-bit and 64-bit systems. It is complete. For instructions on how to use this application, see the "Contents & Navigation Instructions" on the HOME and Indexes pages.
